SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Dear Sir:

In connection with the above-entitled matter, Applicant hereby attach U.S. Patent Office form PTO-1449, including copies of the references listed therein. Applicants are not submitting copies of the U.S. Patent reference(s)/U.S. Patent Publication(s) as the Office waived the requirement on July 11, 2003. These references were cited in related European Communication dated June 1, 2006 and/or in European Supplementary European Search Report dated March 28, 2006 issued in the European counterpart patent application. Enclosed are copies of the European Communication and Supplementary Search Report.

The claims in the present application are believed to be patentably distinguished over these references.

This Supplemental Information Disclosure statement is being made pursuant to the duty of disclosure imposed by law and formulated in 37 CFR 1.56(A). No representation is made that the information thus disclosed in fact constitutes prior art or that it is the closest prior art, inasmuch as 37 CFR 1.56(A) relies on a materiality concept which depends on subjectivity.

The relevance to the pending U.S. patent application is that the references were cited in related European patent application on the same subject matter. However, no independent analysis of the references, the accuracy of the statement of the European examiners or the claims of the European application under the laws of the country or the United States relative to the subject matter claimed in the present application has been made; the present understanding of the contents thereof by the undersigned being based on the European Examiner's comments submitted therewith.
